EDUCATION

Keshav Memorial Institute of Technology
Bachelor of Technology in Computer Science

Hyderabad, Telangana
Oct 2022 - Present

M P R M Sri Viswasanthi Junior College
Secondary Education

Vijaywada, India
Oct 2019 - May 2021

TECHNICAL SKILLS

AI & ML: CrewAI, LangGraph, RAG, RAG Fusion, LLMs, TensorFlow

Web & Tools: React, Next.js, Node.js, Express, MongoDB, Docker, Git

Languages: Python, Go (Golang), Solidity, JavaScript, C++, Java

Web3 & Blockchain: Solana, Anchor Framework, Arweave, Lit Protocol, Web3.js

EXPERIENCE

Vitwit

Hyderabad, India

Software Engineering Intern

Nov 2025 - Present

- Developed an automated content generation pipeline that creates images and videos using predefined templates, seamlessly stitching outputs to produce final media assets.
- Contributing to the development of high-performance backend infrastructure and decentralized applications.

DRDO Labs

Hyderabad, India

Research Intern

[Aug 2025 - Oct 2025]

- Conducted research on Machine Learning and advanced predictive techniques for defense applications.
- Implemented and optimized algorithms to analyze complex datasets, improving model accuracy.

Humming Apps

Remote

Open Source Contributor / Web Developer

April 2025 - May 2025

- Implemented modular, responsive UI components with **React and Next.js**.

PROJECTS

• SweatSync (AI Fitness Agent)

[GitHub](#)

- Developed a strength training and diet planner featuring a personalized AI Chatbot.
- Architected an autonomous multi-agent system using **CrewAI** and **LangGraph** to act as a personal trainer.
- **Tech Stack:** Python, CrewAI, LangGraph, LLMs, Streamlit.

• WealthWise

[Website](#)

- Financial advisory platform utilizing **RAG** and fine-tuned models for investment suggestions.
- Integrates live market data for stocks, mutual funds, and gold to provide real-time analysis.
- **Tech Stack:** MERN, RAG, Fine-tuning, AI Agents.

• Permaded (Decentralized Education Platform)

[GitHub](#)

- Built a permanent, decentralized course marketplace ensuring immutable content ownership.
- Implemented **Solana Smart Contracts** using the **Anchor Framework** for state management.
- Integrated **Arweave** for permanent storage and **Lit Protocol** for decentralized access control.
- **Tech Stack:** Solana, Anchor, Arweave, Lit Protocol, React.

RESEARCH & PUBLICATIONS

• "DevConverge: Talk With Your Code" – Presented at ICECIS Conference.

Authored a paper on a collaborative coding architecture utilizing **RAG Fusion** and LLMs to facilitate real-time code interpretation and developer collaboration.

• "Advanced Sun Tracking Solar Panel System" – Published Paper.

Designed an IoT-based solar tracking system that improved energy efficiency by 60% and extended system lifespan.

LEADERSHIP & ACHIEVEMENTS

- **President, NSS-KMIT:** Organized 38+ events; developed an automated certificate generation portal.
- **Finalist:** Generative AI Hackathon (CBIT Hyderabad x Microsoft).
- **1st Place:** IoT Project Competition at KMIT.
